MEETING AGENDA

DATE: Monday, June 21st, 2010
PLACE: Rotary Room, Milton-Freewater Community Building
TIME: 7:00 – 8:30 p.m.

Review minutes of the last meeting – May 17th, 2010

Oregon Solutions Team and the Milton-Freewater Levee update – The USACE inspection has occurred and identified several new structural problems since the last inspection. The final inspection report is not available. The Oregon Solutions team met May 18th and will meet again on June 30th. Also, there has been a meeting and tour to develop a solution to vegetation management. There is a need to develop a funding strategy to assess, design, and fix the additional structural problems with the levee. A next step is getting cost estimates to repair levee damage.

Update on the Corps/CTUIR Walla Walla River Flow Improvement Project – estimated costs for final design and construction have increased. There is a need for local input to find ways to cut costs.

STELLAR Program fundraising - discussion to make sure local students have access to hands on science, technology, and natural resource programs to supplement their curriculum.

Announcements

Next Meeting: July 19th, 2010 at the Rotary Room, Milton-Freewater Community Building, 5th Ave. and Ward St., 7:00-8:30 p.m.
