MEETING AGENDA

DATE: Monday, March 19th, 2012
PLACE: Rotary Room, Milton-Freewater Community Building
TIME: 7:00 – 8:30 p.m.

Review minutes of the last meeting – February 20th, 2012

Walla Walla Technical Review Team meeting report – the meeting was similar to WW Technical Work Group meetings we have had in the past with water monitoring and fish monitoring reports presented to an audience that included water managers and fish managers from both states, the Umatilla Tribes, and US Fish and Wildlife Service. Discussions included targeting flow impaired river reaches with recharge projects, fish production, and restoration projects.

Zell Irrigation Diversion fish passage project update- New designs are being developed, additional funding has been secured. The goal is designs and permits this spring and construction this summer.

Smith Concrete Berm fish passage project update – design concepts are being debated. Construction may occur as soon as this summer.

Nursery Bridge fish passage project update – design concepts and permitting have been discussed. The Watershed Council may serve as pass through for funding. The goal is to complete construction this summer in conjunction with the levee repair work at that location.

CTUIR/Corps Feasibility Study update

Nichols Canyon stormwater sediment control

Frog headgates/automation project update

Bylaws review

Announcements

Assistant Watermaster position

Next Meeting: April 16th at the Rotary Room, Milton-Freewater Community Building, 5th Ave. and Ward St, 7:00-8:30 p.m.
