MEETING AGENDA

DATE: Monday, April 16th, 2012
PLACE: Rotary Room, Milton-Freewater Community Building
TIME: 7:00 – 8:30 p.m.

Review minutes of the last meeting – March 19th, 2012

Stillman Ditch Piping project update

Smith Concrete Berm fish passage project update – An agreement has been reached on the design concept. Designs are going out for review. Construction may occur as soon as this summer.

Zell Irrigation Diversion fish passage project update - New designs are being developed, additional funding has been secured. The goal is to complete designs and permits this spring and construction late this summer.

Nursery Bridge fish passage project update – This project will be put on hold until design and funding issues are worked out. The tentative goal is now to complete design and go to construction the summer of 2013. The levee repair work at and below this site along the Eastside is no longer considered necessary due to the downcutting of the river channel increasing flood capacity.

Columbia River Water opportunities – recent discussions between Oregon and Washington have opened up new possibilities of water from the Columbia River being available to help farms and fish in the Walla Walla valley.

Frog headgates/automation project update

Bylaws review

Technology Sponsorship Request
