MEETING AGENDA

DATE:    Monday, July 16th, 2012
PLACE:   Rotary Room, Milton-Freewater Community Building
TIME:    7:00 – 8:30 p.m.

Review minutes of the last meeting – June 18th, 2012

Smith Concrete Berm fish passage project update – Permitting is underway. Designs are out for review. Construction is planned for this summer. Liability issues have been worked out.

Zell Fish Passage Project update- Designs are finally completed and have been sent out for review. Permitting has started, however there may not be enough time to complete permitting and complete the construction of the entire project by September 30th.

Shallow aquifer recharge strategy update – a progress update will be provided on the next set of recharge sites we are developing. A proposed solution to water delivery has been developed for the Oregon side to some of the new recharge sites. A funding proposal for Washington’s next sites is being developed, including a dual purpose storage and recharge site.

CTUIR/Corps Walla Walla River Flow Improvement Feasibility Study - Chris Marks will share some recent developments with the project

Monitoring team vehicle discussion

Muddy Frogwater booth – staff will set up and run a booth at the August 17-19 event. Board members and others are invited to join us.

Announcements
